## Here is a Valentine's Treat Recipe from ASIS Parent Maggie Savage

### Easy Peanut Butter Cups (Valentine's Day)

Valentine's is this weekend and if you want to do some of your own candy making, try these simple peanut butter cups. If you can't have nuts, or if you want to send them to school, use your favorite seed butter or Wow butter. Feel free to double or triple this batch, depending on how many you want to make.

¼ cup all-natural peanut butter (any nut or seed butter will do)  
2 tablespoons maple syrup  
1 teaspoon vanilla  
100 grams of unsweetened chocolate (I use Cocoa Camino)  
4 tablespoons maple syrup  
4 tablespoons coconut oil  
1 teaspoon vanilla

1. Set aside a mini cupcake/muffin pan. I use silicone mini muffin pans and they make these cups really easy to pop out.
2. Combine peanut butter, maple syrup and vanilla in a medium-sized bowl. Stir until well combined. Set aside.
3. In a double boiler (or a glass bowl over a pot of water), gradually melt chocolate bar with maple syrup, coconut oil, and vanilla. Fill each cup of a mini muffin pan with approximately 1/2 teaspoon of the melted chocolate. Freeze until hard.
4. Remove chocolate from freezer and spoon in approximately 1/2 teaspoon of the peanut butter mixture.
5. Return to freezer for about 15 minutes. Remove from freezer and fill cups with remaining chocolate. Freeze or refrigerate until hard.
6. Use a knife to help you pop the Peanut Butter Cups out of the pan. A silicone pan makes this really easy. You could also use candy wrappers.
7. Store in the fridge as chocolate will melt in your hands AND in your mouth.

Yield: 12 mini cups

## **The Adam Scott LEADS Resilience Project 2021**

### **ASIS had a unique experience speaking with Senja all the way in Finland!**

Did you see the news last week about the man who singlehandedly used his row boat to move a massive ice flow out of the way so that he and his partner would not get iced in and cut off from the main land on their island in Finland?

What a cool example of growth mindset, determination and resiliency? Well! Ms. Murphy contacted the couple and they agreed to chat with us via Webex!

Students from various classes posed interesting and thought-provoking questions. It was really cool!
